Source Code 1: My C-Code

```c
int main() {
printf("hello, world");
return 0;
actiona
actiona
action
}
int main() {
int main() {
int main() {
int main() {
int main() {
int main() {
int main() {
int main() {
int main() {
printf("hello, world");
return 0;
actiona
actiona
action
}
printf("hello, world");
return 0;
actiona
actiona
action
}
printf("hello, world");
return 0;
actiona
actiona
action
}
printf("hello, world");
return 0;
actiona
actiona
action
}
printf("hello, world");
return 0;
actiona
actiona
action
}
```

```
47    printf("hello, world");
48    return 0;
49    actiona
50    actiona
51    action
52    }
53    printf("hello, world");
54    return 0;
55    actiona
56    actiona
57    action
58    }
59    printf("hello, world");
60    return 0;
